

Destination Updates as on 9 July 2021

NEPAL

The Government of Nepal has decided to prolong the prohibitory order in the valley (Kathmandu, Lalitpur & Bhaktapur) until 15 July 2021 with ease on various private and public sectors. Under the new directives, vehicles can ply normally while following all safety protocols. Shops, pharmacies, and medical supply stores will remain open as per usual. Restaurants can operate takeaway and online delivery services.

However, restrictions continue to be in place on any form of public gatherings, dine-in restaurants, movie theatres, salons, health clubs, and swimming pools. Domestic flights have resumed operation at full capacity from 1 July; however, the number of flights is reduced to 50%.

There has been no change for entry and quarantine rules for foreigner travellers from those mentioned in the previous update.
